

Programs and Features > Remove any old version(s) of EndNote.

BACK UP any libraries. See the Help section: Backing up on the website: www.crandon.com.au
Back-up customised styles or connection files. If you are not sure if you have any custom styles, the answer is probably not.

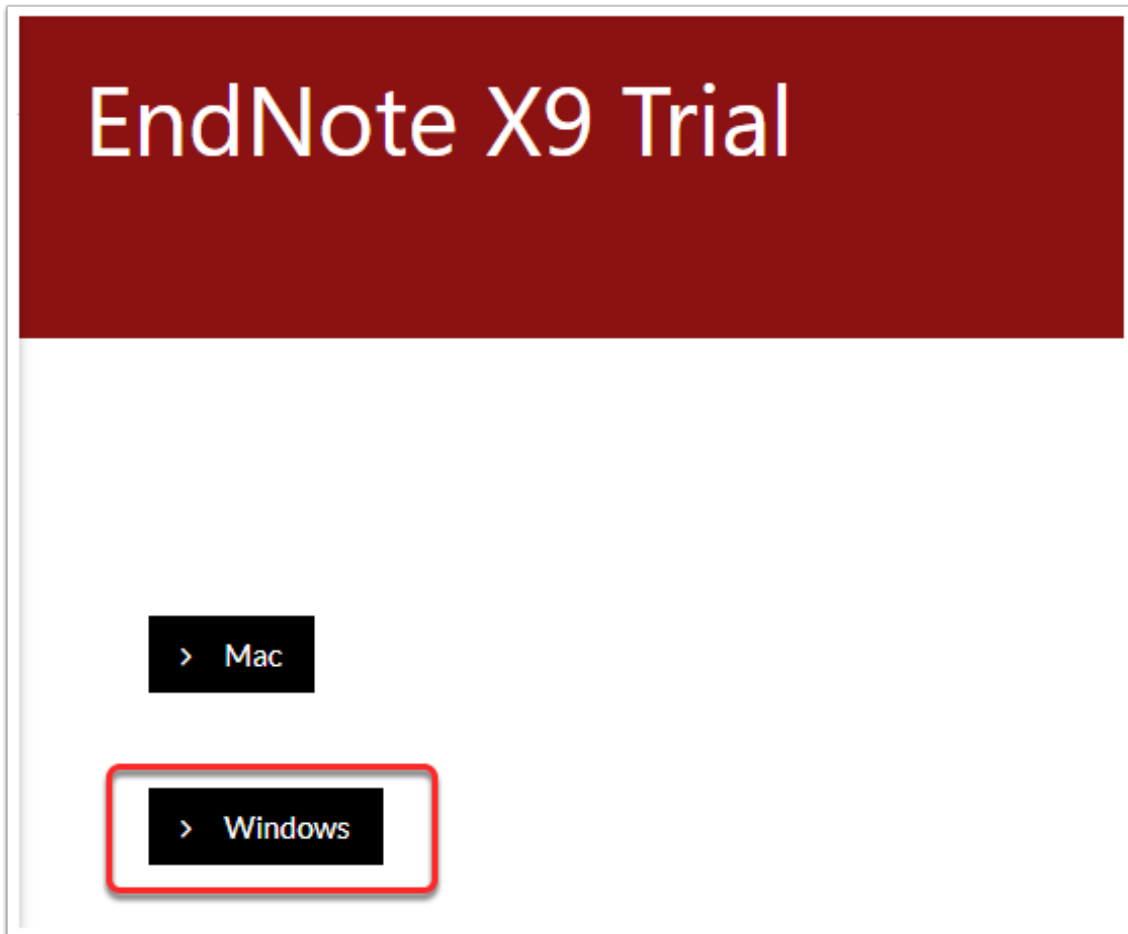

Start > Control Panel > Programs (Uninstall a program) >

CS_NSW EndNote Download - Google Chrome

You can download the latest installer from the link in your purchase e-mail.

If you need a trial then: <http://www.crandon.com.au/EndNote/demo.html>

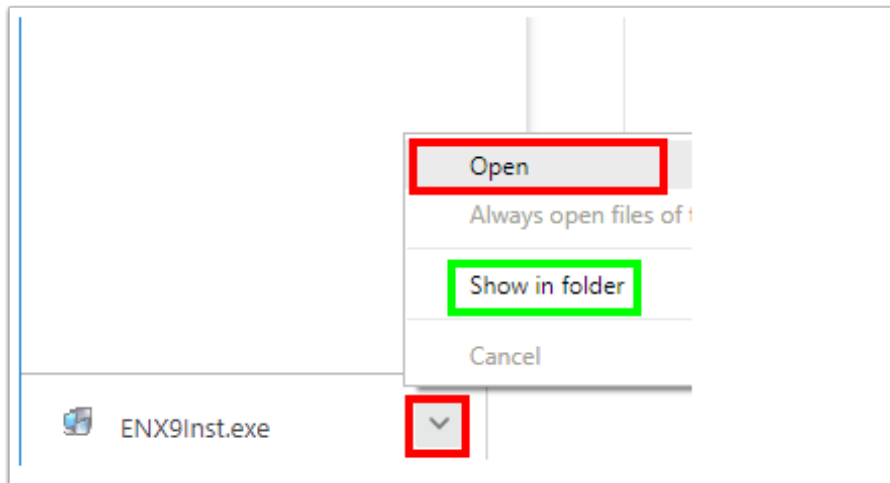

TURN OFF anti virus, and any other open programs during the install.

You can also save / copy the installer to a back-up USB to use on another machine without having to re-download the file. Go to download folder or the location you decided to save the file to locate and copy if required.

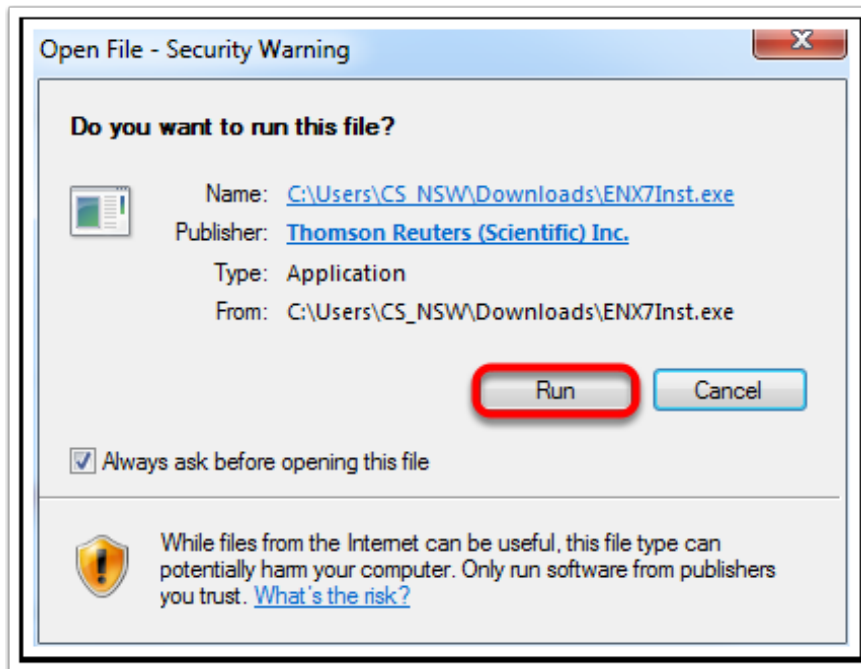

The example below is using the Google Chrome browser.

Open the ENX9Inst.exe file to begin.

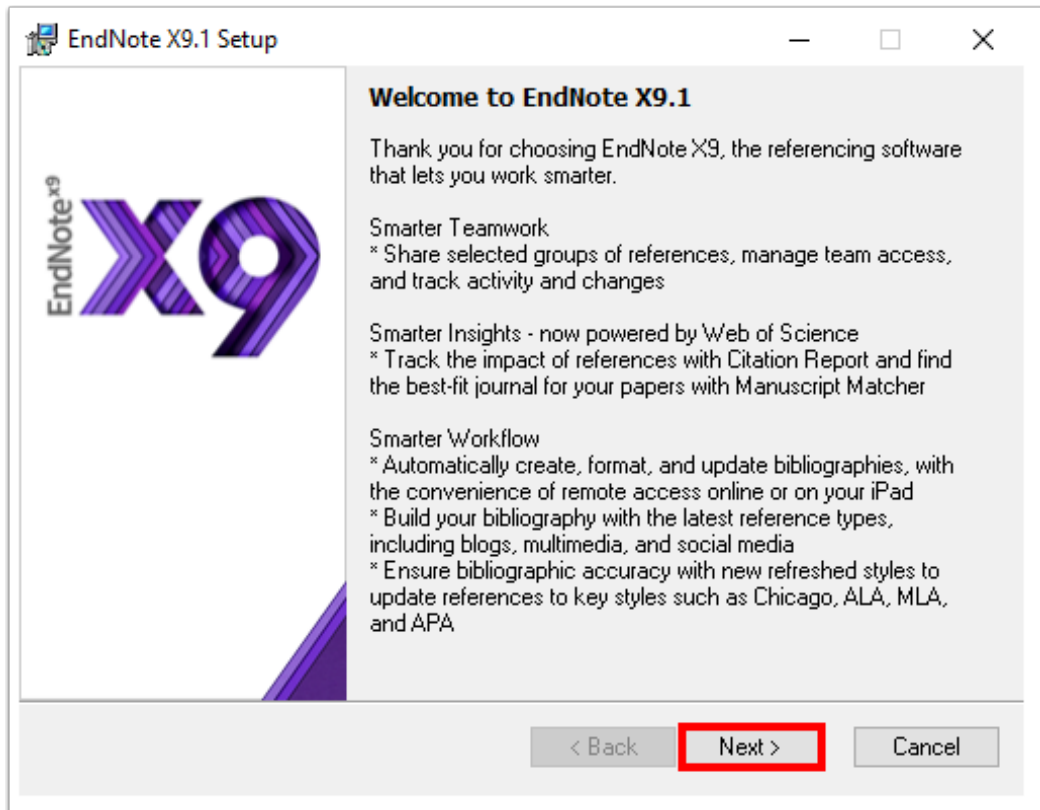

Open File - Security Warning

If you receive a security warning at this stage you will need to select Run to continue with the install.

EndNote X9 Setup

Next

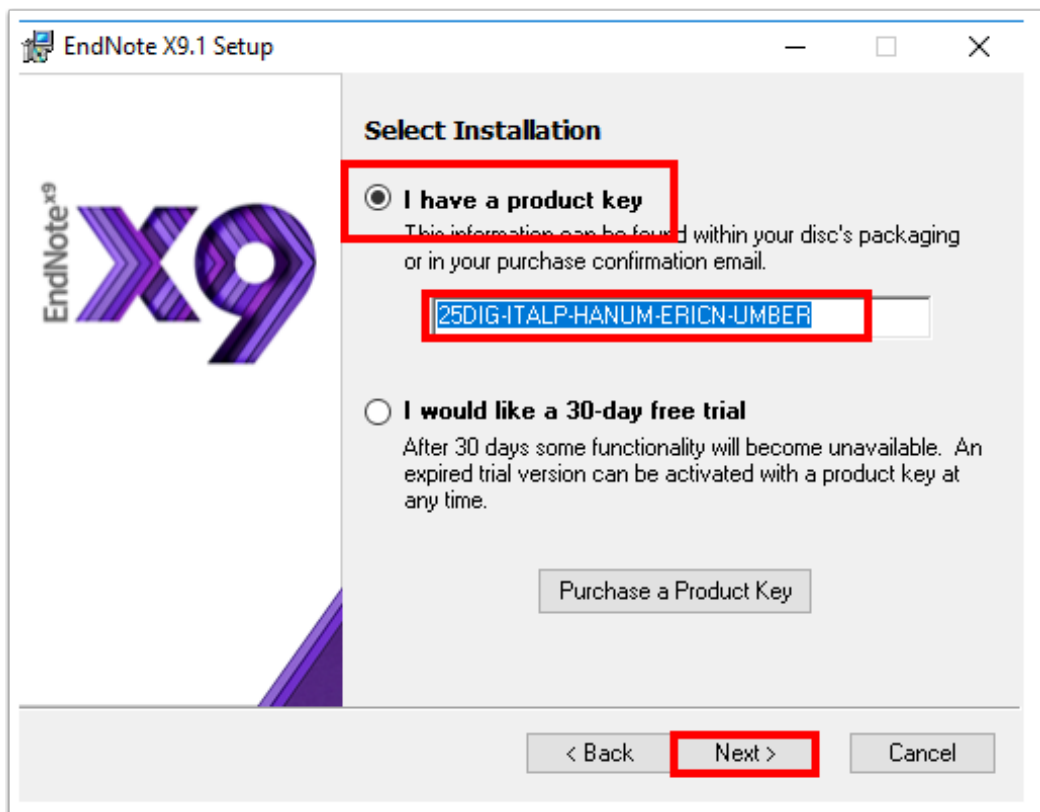

EndNote X9 Setup

Select have a product key

Enter your 25 digit key, if you purchased a download then you can copy and paste the key from the e-mail we sent to you, you may need to use the shortcut keys: CTRL+C to copy and CTRL+V to paste.

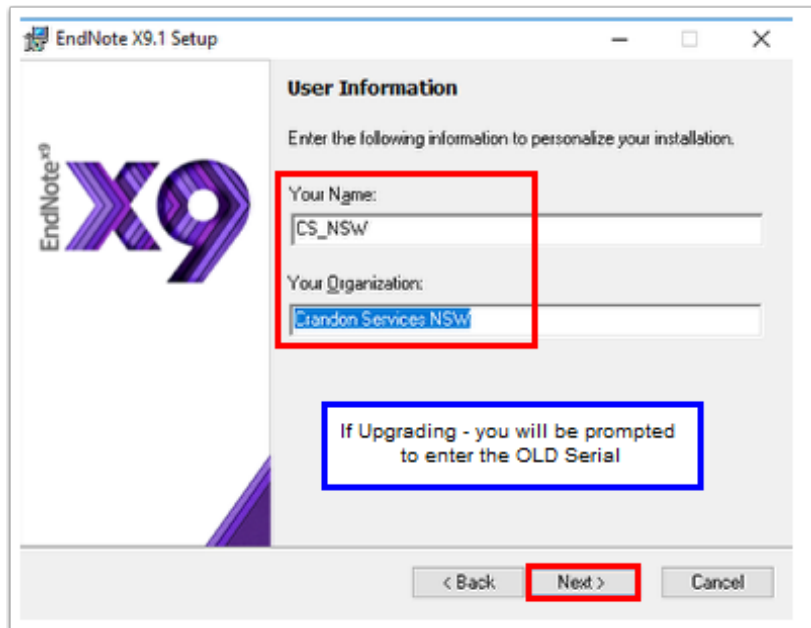

If you purchased a CD, then the serial can be found on the inside cover of the DVD case.

If you are installing from a Site Licence copy, then you will not be asked to enter a key.

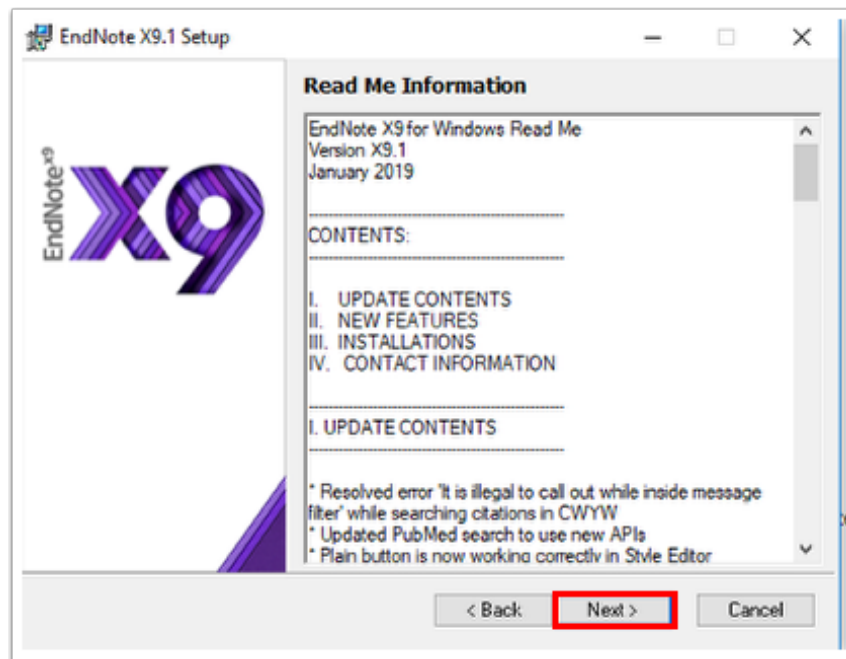

EndNote X9 Setup

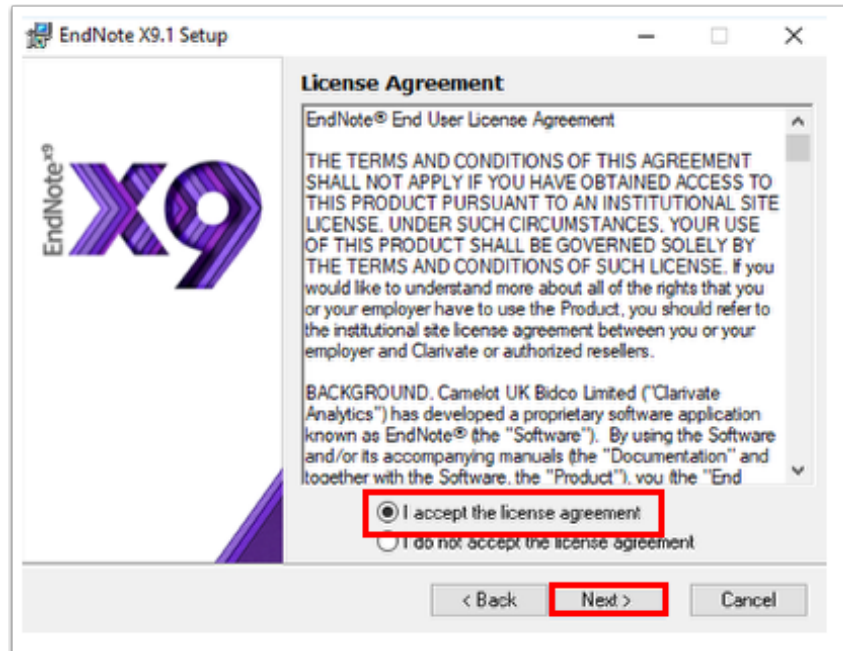

Add your details. If you are installing an upgrade, you must enter your OLD serial number to proceed.

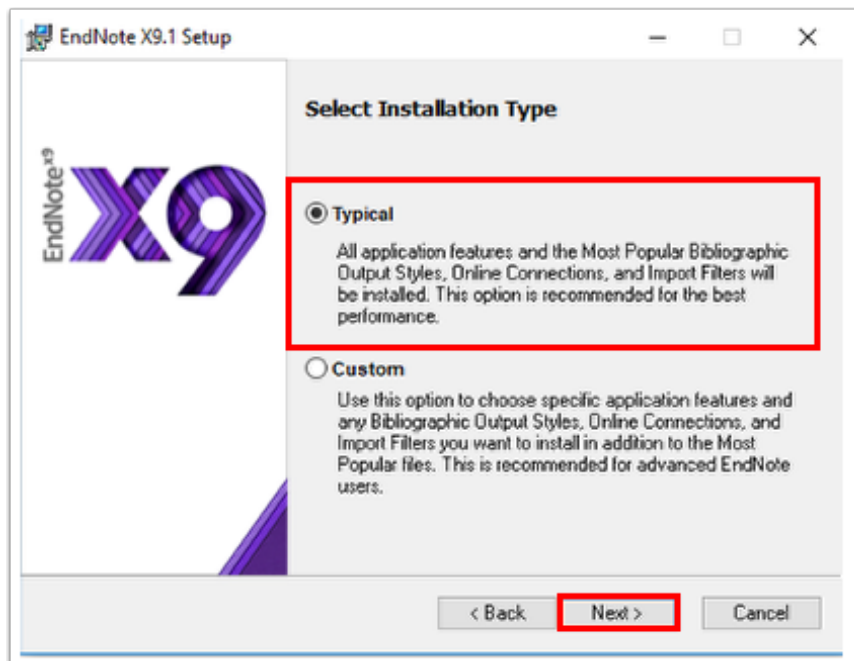

Read Me Information

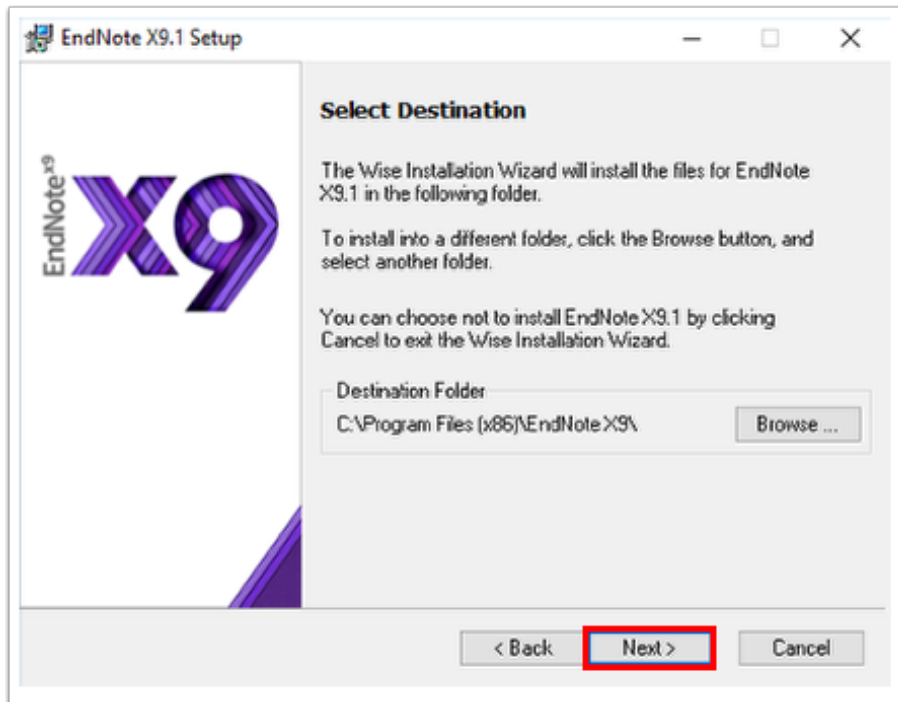

Agree to the licence Agreement to continue

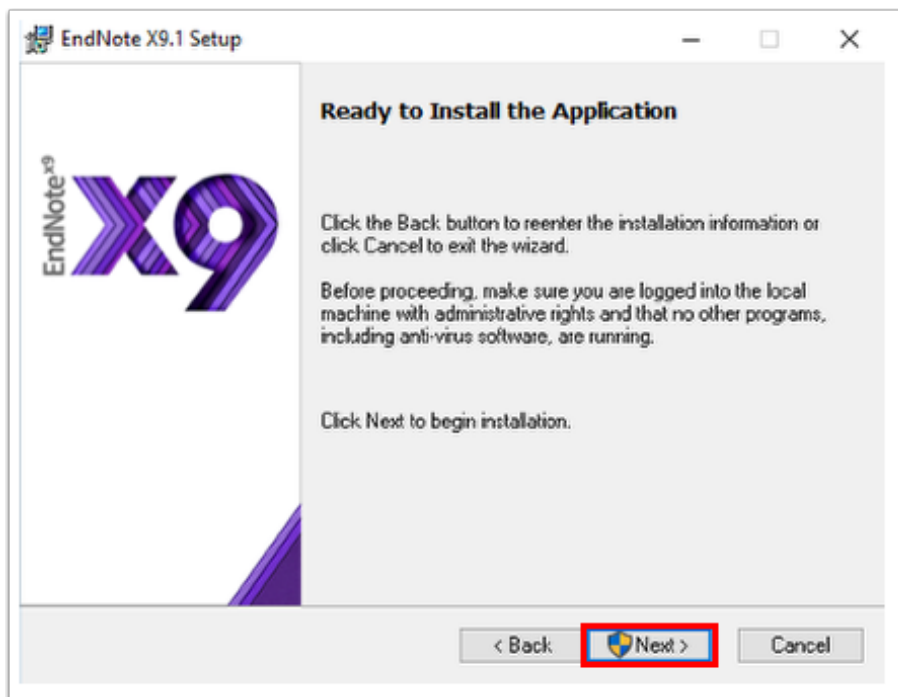

Use the Typical installation type.

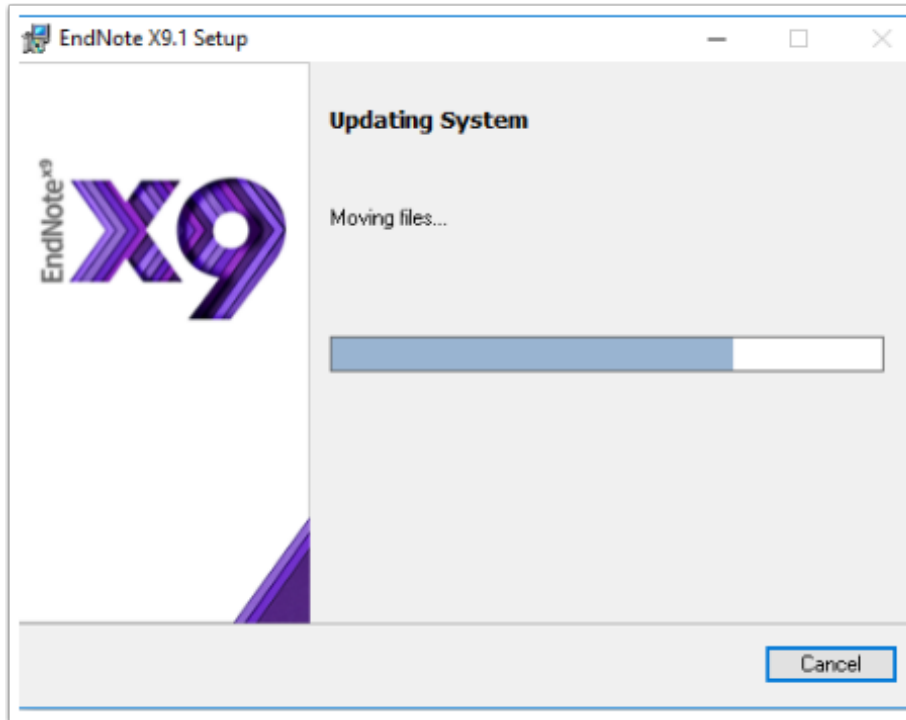

Most users should use the default location.

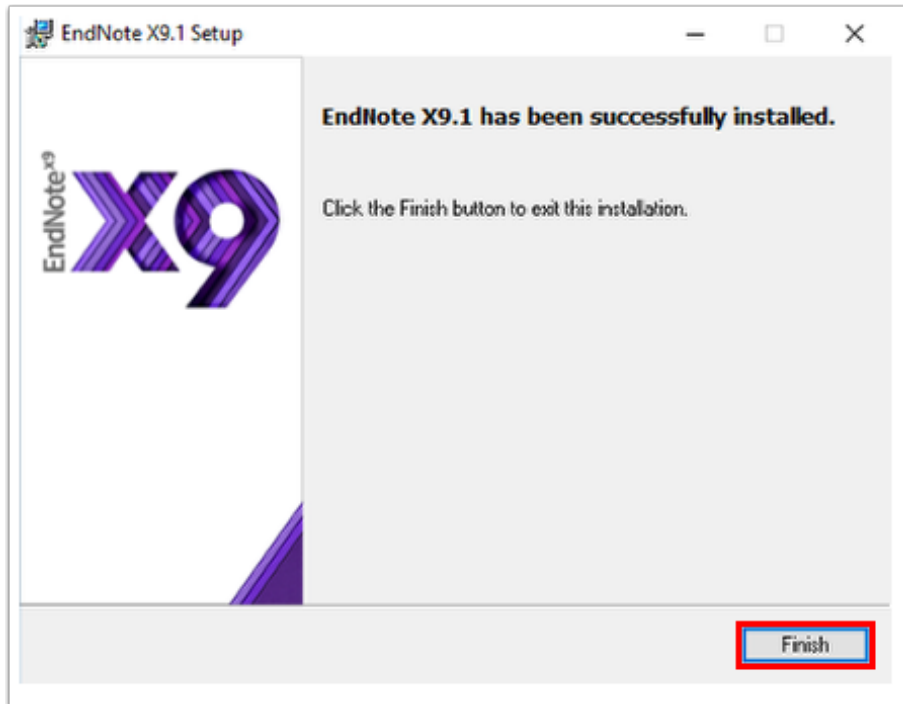

Ready to Install

Wait for the program to install.

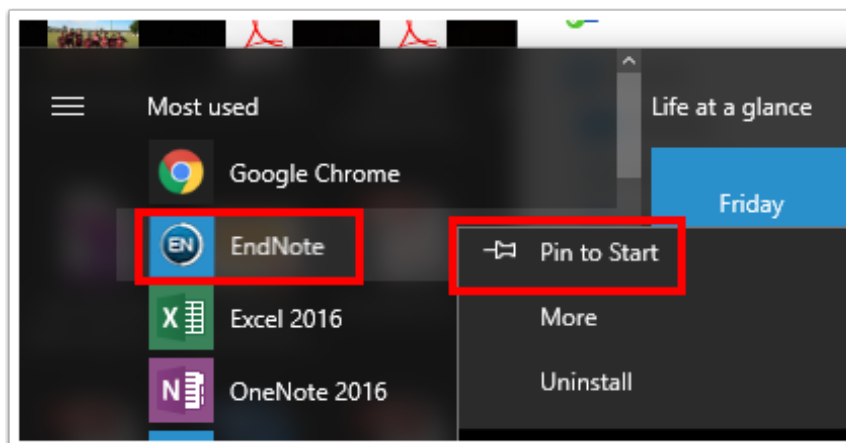

Finish.

Start > All Programs > EndNote

Create a short-cut or pin to the task bar or Start Menu by finding the EndNote program from the start menu > All Programs > EndNote, right click for options.

Select a Reference Library:

Open EndNote.

If you have a reference library you can open that, else open the Sample Library:

File > Open > Open Library ...

Navigate to C:\Program Files (x86)\EndNote Xx click on the shortcut to Examples.
